

Rega Couple 2 Interconnect
\$195/1m pr.

The Couples offer plenty of upper midrange/treble detail, with fine resolution of textures, yet without exaggerated transients or edginess. Their bass is tight and punchy, and they are wonderfully neutral throughout the midrange. While they don't offer the almost "luminous" midrange you'll hear in some very expensive cables, their essential neutrality makes a fine substitute for a "pennies-on-the-dollar" price.
